3-Stage front arms provide greater overall arm sweep for asymmetric or symmetric lifting in the same service bay.

Padded overhead shut off system prevents vehicle damage from being raised too high.

Wide rubber door guards protect vehicle doors from damage.

ASYMMETRIC AND SYMMETRIC PROFESSIONAL GRADE 10,000 LB. CAPACITY 2-POST LIFT

- Heavy-duty 2-stage arms enable heavy-duty symmetric lifting up to 3,000 lb. per arm
- Adjustable double telescoping screw pads minimize the need for adapters
- Padded overhead shut off system prevents vehicle roof damage
- Single-point mechanical lock release system disengages both column locks simultaneously
- Wide rubber door guards protect vehicle doors from damage
- 11' 11-7/8" Standard height allows lift to be placed in service bay with 12' ceiling
- Premium powder coat finish provides long-lasting durability
- Plated arm restraints and arm pins inhibit rust and provide long-lasting durability
- 1-Year parts and labor warranty

2' COLUMN HEIGHT EXTENSION

03629-E10EH2 **\$379.99** REG \$399.99

*Installation not included

Offset front arms provide easier spotting to lift points and safely lift both symmetrically and asymmetrically within the same service bay.

48" Elongated carriage design decreases load on bearing.

Oversized 5" diameter pulley and heavy-duty 5/16" cable reduces stress on equalization system and increases cable life.

ASYMMETRIC AND SYMMETRIC PROFESSIONAL GRADE 10,000 LB. CAPACITY 2-POST LIFT

- Offset 3-stage front arms + 3-stage rear arms provide the greatest overall arm sweep to meet the widest range of vehicle pickup points
- 11' 8" Standard height can be placed in standard service bay with 12' ceiling
- Available 2' and 3' column extensions enable technician to work at an ergonomic height when servicing taller vehicles
- Double telescoping screw pads adjust to multiple heights minimizing the need for adapters
- 48" Elongated carriage design decreases load on bearing
- Heavy-duty 5" diameter pulley and 5/16" cable reduces stress on equalization system and increases cable life
- Single-point mechanical lock release system allows technician to disengage both column locks simultaneously
- Fully gusseted base plate design reduces column deflection

Heavy-duty front bearing and yoke assemblies distribute contact load to reduce column stress for longer product life.

Fully gusseted base plate design reduces column deflection and makes lift less sensitive to uneven floors.

Single point air actuated mechanical lock release allows technician to disengage columns simultaneously.

MEDIUM DUTY 15,000 LB. CAPACITY ALIGNMENT RACK 4-POST LIFT

- 78" Rise height - the highest rise in the industry
- Recessed stainless steel turning radius gauges provide accurate readings
- Single-point air-actuated lock release disengages all column locks simultaneously
- Oversized solid machined steel pulleys for prolonged pulley and cable life
- 14 Level locking positions for a variety of alignment and general service tasks

Alignment Models Include:

- Two 7,500 lb. rolling jacks, internal air line system for dual rolling jacks, flush mount stainless steel turning radius gauges, rear slip plates, multi-position work-steps, automatic wheel stops
- 80" Rear recessed free floating slip plates offer a wider range of 4-wheel alignment capacities
- Compatible with the industry's latest camera imaging alignment systems

WHEEL ALIGNMENT COMPACT UNIT

The WL5200CL is a unique wheel alignment system for cars and light trucks that offers four Bluetooth wireless rechargeable alignment heads which include lithium ion batteries for long life. It comes complete with netbook computer and storage cabinet and features eight cameras which allow blocked beams and calibration checks during every alignment using user friendly software to guide the technician.

Features:

- Accelerometers (newest measuring technology)
- PC based software with multiple languages
- 24" Wheel clamping range (30" optional)
- Power supply and USB Bluetooth antenna
- Vehicle and customer database
- Function controls at measuring heads
- Two wheel alignment capable with two heads only
- Measures SAI, toe out on turns and set-back
- Lock and hold adjustments for lifted wheels
- Freeze mode
- View all adjustments for one axle on one screen
- Front and rear spoiler mode allow heads to be tilted into view
- Zoom screen from each head to increase viewing range
- All front and rear readings are live
- Each machine comes with a 1-year parts and labor warranty
- Manufacturer reserves the right to make any and all alterations it may consider suitable without notice

Optional Accessories:

- Printer
- 17" Flat screen monitor
- Steering wheel lock
- Brake pedal lock
- Turnplates
- Backup cable kit
- Jaw extension kit (dually)
- 30" Clamp extension kit
- Drop down kit

TIRE BEAD SEATER

The Tire Bead Seater is used to make inflation possible when a tire, new or used, is mounted on a wheel and the tire bead does not touch both sides of the wheel. The air trigger on this tool expels a tremendous burst of air that inflates the tire to seat it to the wheel rim. This allows the tire to be inflated to the recommended pressure through the tire valve. The Tire Bead Seater is equipped with unique configurations that enhance ease-of-use, productivity and safety for the technician looking to get the job done right every time. Unlike other options out there, the Tire Bead Seater's ASME certified 13-gallon tank is designed with a nozzle and valve connected via hose assembly, giving the user more control rather than requiring them to hold the weight of the tank. The trigger style discharge valve allows for optimum airflow control while allowing both hands to firmly hold the nozzle/valve assembly, critical for effective and safe use. Wheels and handle function in either the vertical or horizontal position for easy mobility and storage. Unique nozzle design significantly reduces "blowback recoil" and contains discharge holes strategically placed for optimum inflation of a wide range of the tire sizes and wheel diameters. Air valve included for filling tank, which also provides compressed air for filling the tire while seating the bead - optimum for on-the-road service.

GLOBAL SCAN TOOL KIT

With the all-new GDS, you have OE-level access to domestic, European and Asian manufacturers, for read/clear codes, live data graphing and recording, bi-directional testing and module coding. The GDS offers unrivaled speed in the access and communication of all vehicle systems and their modules. Boot-up and navigation, as well as diagnostic procedures are performed ultra-fast and with superior coverage. The GDS is also Wi-fi-enabled, allowing you access to your favorite websites for troubleshooting advice, diagrams, and repair information. Adding to the list of new features is a one-button update which allows you to update one or more car lines with the simple push of a button.

- OE-level scan tool access for domestic, Asian and European applications
- Full module coding and bi-directional capabilities
- True PC architecture and processor - boot-up and navigate through menus in lightning speed. Surf the web and access repair databases. The GDS runs on Windows XP professional embedded and is not limited by Win CE, which is found in most competitor's scan tools - this enables the GDS to multi-task and have multiple applications running at the same time
- 1.0Ghz processor and a solid state hard drive to ensure durability in today's demanding shop environment
- Large high-resolution WVGA touch screen
- One click, one button update. Why stop what you're working on to update software when you don't have to? Update on the fly with our one click update feature
- Wi-fi wireless built-in (B, G, and N compliant) and an ethernet port should you need it. The GDS' built-in wireless card gives you fast and convenient access to your favorite websites and repair databases
- Plug and play video out allowing for dual screen outputs of 1024 x 768 and 800 x 600
- Optional modules available: lab scope, battery box, sensor simulator and J2534 pass-thru

FLEET DIAGNOSTICS

JPRO® COMMERCIAL FLEET DIAGNOSTICS - GM

JPRO® Commercial Fleet Diagnostics software is the solution for mixed fleets. Whether working on large class 7 or 8 vehicles with dual diagnostic ports for both the J-BUS or OBD-II networks, or a 1/2-ton Ford or GM pick-up/SUV, JPRO® Commercial Fleet Diagnostics is the only PC-based diagnostic tool that covers this broad spectrum of vehicles.

Features:

Displays all vehicle faults, gives the user the ability to clear faults, provides key data points, and allows quick and easy toggling between all of the critical elements of each system. Other features include the ability to record data into log files for playback, view and chart engine parameters, view emissions test results, print reports, launch OEM software (if installed), and provides links to the OEM service literature websites (internet connection required). GM module requires the JPRO® DLA+ (#N012206) or DLA+ Wireless (#N012208) adapter.

Coverage

- 2002-2011 1/2-ton through 8500 series
- Gas and diesel engines
- Total vehicle coverage
- Emission and diagnostic testing
- Cylinder cut out test
- Clears faults

Vehicle readiness

- Displays vehicle health status
- Roll call displays all vehicle components

Key data points

- Contains graphical displays of key component data values
- Dashboard lamp shows the current vehicle's lamp status

Fault code information

- Displays all relevant fault information
- Clears faults
- Reports individual fault freeze frame information

Data monitor

- View sensor data in real time
- Strip charting of selected data items

JPRO® FULLY RUGGED FLEET SERVICE KIT

This kit comes with the touchscreen-capable Panasonic Toughbook CF-31 and is built to stand up to rain, extreme temperatures, sunlight and the dirtiest service bay environments and comes with a 3-year manufacturer's warranty. Includes adapter and fleet service kit carrying case.

Kit comes complete with:

- JPRO® Heavy-duty Fleet Diagnostics software with 1-year of updates and support
- Choice of JPRO® vehicle adapter
- 6 and 9-Pin "dual CAN" Y-cable
- 15' USB cable

N065125 \$8,799.99

HEAVY-DUTY TRACTOR/TRAILER ABS DIAGNOSTIC KIT

This kit comes with a diagnostic desktop platform, adapter, and carrying case to diagnose, test and initiate the repair of heavy-duty tractor and trailer anti-lock braking systems. Includes a 1-year manufacturer's warranty. Platform model may vary.

Kit comes complete with:

- Heavy-duty ABS Software Bundle (Bendix ACOM, Haldex ABS, Meritor WABCO Toolbox, Wabash ABS)
- 6 and 9-Pin "dual CAN" Y-cable (3')
- PLC J560 cable with "T" connector
- USB cable (15')

JPRO® DLA+ PLC TRAILER BRAKE KIT

Our Standard DLA+ Adapter With PLC, Noregon's JPRO® DLA+ PLC Adapter comes with everything you need to connect a heavy-duty vehicle or trailer to a PC in order to run diagnostics. Allows communication with and diagnostics of ABS and J1939/J1708/J1587 devices.

- Works with all heavy-duty OEM software (OEM diagnostic software sold separately)
- Heavy-duty only

Includes:

- JPRO® DLA+ PLC Adapter
- 6 and 9-Pin "dual CAN" Y-cable (3')
- PLC J560 Cable with "T" connector
- USB Cable (15')
- JPRO® carrying case
- Software driver CD
- 3-Year warranty

Note: Software not included

N0512204 \$1,249.99

JPRO® DLA+ ADAPTER KIT

Noregon's JPRO® DLA+ Vehicle Adapter Kit comes with everything you need to connect your medium or heavy-duty vehicle to a PC for diagnostics, reprogramming or parameter adjustment.

- Works with all heavy-duty OEM software and some medium-duty OEM software (OEM diagnostic software sold separately)

Includes:

- JPRO® DLA+ adapter
- 6 and 9-Pin "dual CAN" Y-cable (3')
- USB Cable (15')
- JPRO® carrying case
- Software driver CD
- 3-Year warranty

Note: Software not included

JPRO® FLEET DIAGNOSTICS V5.0 COMPLETE VEHICLE DIAGNOSTICS

JPRO® Fleet Diagnostics is a complete, easy-to-use, commercial vehicle diagnostic application.

Heavy-duty:

JPRO® Fleet Diagnostics works with all heavy-duty vehicle (chassis), engine, transmission, and braking systems for complete vehicle troubleshooting and repair.

Features:

Displays all vehicle faults, gives the user the ability to clear faults, provides key data points of interest to the technician, and allows the tech to quickly and easily toggle between all of the critical elements of each system. Record data into log files for playback, view and chart engine parameters, print reports and launch OEM software and troubleshooting guides with the click of a button. Ability to run diagnostic tests on medium-duty commercial vehicles.

Vehicle readiness

- Displays vehicle health status
- Roll call displays all vehicle components
- Detailed vehicle and component information

Key data points

- Contains graphical displays of key component data values
- Dashboard lamps show the current vehicle's lamp status

Fault code information

- Displays all relevant fault information
- Clears faults
- Reports individual fault Freeze Frame information
- Launches associated OEM applications and Troubleshooting Manuals (if available)
- Includes 1-year of support and product upgrades

JPRO® BUSINESS CLASS HD FLEET SERVICE KIT

Includes Dell-platform machine and includes a 1-year warranty

HAND CLEANER 4.5 LBS.

This pumicized grime-grabber hand cleaner is tough on even the most difficult grime, yet mild enough to condition the skin. It does not contain the strong solvents found in many low-priced hand cleaners which deflate the skin and rob it of essential fluids. Five premium skin conditioners. May be used with or without water.

HC4540 \$16.99

SUPER TOUGH SCRUB HAND CLEANER

- Easy-to-use
- Cleans deep into pores
- Economical - goes three times further
- Kills odors - leaves a fresh smell
- Won't irritate or burn
- Leaves hands soft, chap-free
- Clean-up in seconds; cuts through dirt and grease
- Size: 64 oz.

HC64TS \$19.19

POWER WIPES HAND CLEANER

Superior hand cleaner/towel combination. Each dispensing canister contains 90 perforated, easy-tear towels saturated with a special, heavy-duty hand cleaning solution. Made from textured polypropylene material which aids in deep cleaning soils from your hands while the solution effectively dissolves grease, grime, oil, lubricants, paints, adhesives, inks, tar and more. Soils are lifted from your hands and captured in the towel. Each canister has a convenient, push button, pop-open, reusable dispensing top. Eliminates the need for paper towels or shop rags.

PORTABLE DIESEL PARTICULATE FILTER CLEANER

The Diesel Particulate Filter (DPF) Cleaner was designed with shop service in mind. Its portability allows the unit to be placed as close to the vehicle as possible and to be stored wherever needed in the service facility. The advent of the 2010 Tier 4 cleaning requirements created the need for a lighter, more portable cleaning system which can be taken into the field to clean filters at the point of service.

Complete Kit Includes:

- Cleaning unit
- Three neoprene rings fit filters from 6" (165 mm) to 15.5" (400 mm) in diameter
- Wet/dry HEPA vacuum
- Short, long and curved-flange filter nozzles
- Adjustment feet for standard and flanged filters
- Fully automated operation - once started, the cleaning process can be completed with minimal operator oversight, freeing up the technician to simultaneously do other work in the shop
- Focused Air Jet Technology™ - concentrates a precise high pressure stream of air directly into every cell which has a unique floating puck that prevents splash back and includes three nozzles: two straight (short and long), for standard "open face" DPFs; and one curved for the angled-flange DPFs
- Easy maintenance - contains no internal filters that require user maintenance
- AC and DC adapter cables
- Innovative ash disposal system enables technician to quickly and easily remove and dispose of particulate matter in accordance with local environmental requirements

AIR COMPRESSORS

When you need air, you can rely on Mac Tools® air compressors. Compressors are built using stringent quality control standards. Every compressor is completely tested at full pressure. This, combined with the quality of the product, ensures your compressor will meet the task at hand. Some features that set Mac Tools® compressors apart are:

- 2-Year warranty on two-stage machines
- ASME code air receivers
- Auto tank drain standard on all heavy-duty two-stage
- “Trapped” valve design
- Electric and recoil start standard on gas driven units
- Valves are covered during warranty period
- All machines shipped “wet” – ready-to-use
- Tested at full pressure before leaving factory

ARE YOU A **G** GENERAL USER OR A **P** POWER USER OF COMPRESSED AIR?

The **G** General User operates air tools occasionally performing tasks such as: inflating, blowing/cleaning, painting, light mechanical work and nailing/stapling. The General User typically does not use compressed air as part of his/her livelihood. Air requirements of the tool being used and the available voltage determine which compressor is the best fit. Some Mac compressors better suited for the General Users are: ACP526VP, ACP660V, ACP560V and ACP6580V.

The **P** Power User uses a good deal of air and typically relies on compressed air as part of his/her livelihood. Sanding, painting, grinding, wheel removal/installation, fabrication and production are some of the applications of the Power User. Once air requirements have been determined, some of the better choices for the Power User might be: COMB®, ACP3112D, ACP10120H, ACP7580V and ACP680V.

Whether you are a Power User or General User you must size your compressor according to the amount of cfm you will need. Refer to the compressor selection page to assist with proper sizing of your compressor.

ACP1230GH

G P HEAVY-DUTY TWO-STAGE, KOHLER GAS AIR COMPRESSOR

ACP1230GH **\$2,803.99** REG \$3,504.99

SAVE \$1,363

HD P DUPLEX AIR COMPRESSORS

Two pumps, two motors, one tank. If the first pump comes on but cannot meet the air demand, the second pump kicks on doubling the air output. The next time, the second pump kicks on first so you have equal run time between the two pumps. Built-in redundancy. Alternator and starters pre-mounted and wired. Available in single phase power up to 15hp.

ACP3112DL **\$5,455.99** REG \$6,818.99
